**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 99/37282. See US 6,503,518 B1, which is an English language equivalent of WO 99/37282, for citation purposes.

US '518 is directed to cosmetic and dermatological compositions that comprise one or more partially neutralized esters of monoglycerides and/or diglycerides of saturated fatty acids with citric acid (abstract). US '518 discloses at column 4, lines 51-53 that the compositions preferably contain antioxidants. Lipoic acid is disclosed as a suitable antioxidant at column 4, lines 58-65. For glyceryl stearate citrate as a partially

Art Unit: 1617

neutralized ester of monoglycerides and/or diglycerides of saturated fatty acids with citric acid within the instant claimed concentration ranges and oil-in-water emulsions see the examples beginning at column 8. See also claims 1 and 2.

US '518 does not explicitly teach one composition comprising both one or more partially neutralized esters of monoglycerides and/or diglycerides of saturated fatty acids with citric acid and  $\alpha$ -lipoic acid or application to the skin.

US '518 does disclose that lipoic acid can be added to the composition for its antioxidant properties. Nothing unobvious is seen in substituting the known claimed isomer for the compound of US '518 since such structurally related compounds suggest one another and would be expected to share common properties absent a showing of unexpected results. It is well-known and common practice to apply cosmetic and dermatological compositions to the skin. Therefore, application of the composition to the skin as instantly claimed is not considered patentable over the prior art.

It would have been obvious to one of ordinary skill in the art at the time of the invention to prepare the composition of US '518 using any isomer of lipoic acid and apply it to the skin expecting to obtain a cosmetic and dermatological composition with antioxidant properties.
